Marble

Crema Marfil

Crema Marfil (Antique Finish)

Crema Marfil is perhaps one of the best known Marbles in the world. This creamy ivory marble has stunning antiqued brown and beige veining, which creates a warm, traditional and classic feel.

The soft and buttery finish and old world appearance make this neutral stone appropriate for any application.

The incredible surface texture is suitable for even heavy commercial traffic and because of its neutrality and versatility it can be used in

either a modern or classic setting.

It is consistent in terms of background colour but moderate foreground variation occurs.

A strong, dramatic presence with a rich look, Crema Marfil is an exquisite Marble that brings style and elegance to any living space.
